Luigi Ferrara

Dean

Centre for Arts, Design and Information Technology

George Brown College , Toronto, CA

Subject : Proposal Letter– Dean's Award

Dear Sir,

I am Joy from India. Currently, pursuing the second semester of the Blockchain Development Programme. I'm writing to you to nominate myself for the 2021 Dean's Award of Excellence. My cumulative GPA for the past semester is 3.68. The motivation of this letter is not the financial award, rather I plan to donate the funds to Opensource organizations I am already part of or ones dedicated to blockchain. I tend to pitch a few proposal items which will be beneficial for both students as well the college development in the Blockchain space.

For the last 4 years, in conjunction with my studies, I have been part of a Grass-root level initiative where I along with my peers formulated - "Talent Enrichment Pipeline", vision is to filter raw talent, enrich the students with core technical knowledge and refine them to diamonds.

I am very interested in introducing a similar foundational initiative of a dedicated Blockchain Opensource contribution mechanism at George Brown College. This will allow students to enhance their hands-on experience in improving documentation & code for certain projects and the college will also be able to collaborate with more Blockchain/Crypto-based organizations. Another very effective plan is to have a [Lightboard](#) setup for both students as well as the faculty, where one can create visual content for the global community. [Link for detailed proposal - <https://proposal2gbc.osive.com/>]

I am not just only interested in core technical work in the Blockchain arena, but also in its implementations for social causes. My projects during the course have been focused on eliminating corruption in the Tendering process and building a sustainability platform for fighting oligarchy. In the future, I wish to build a blockchain-based platform for Rape Victims.

I appreciate the knowledge I've gathered during the course so far. I want to build a long-term relationship with the college and the professors and establish a place for myself among the world's best thought leaders in blockchain & I wish to initiate the journey with George Brown College. I hope we can have a follow-up conversation.

Respectfully yours,

Jalmeen Kaur Sethi

(Joy)
